GUIDELINES FOR SUBMITTING ACCIDENT/INCIDENT REPORTS
BY ALTERNATIVE METHODS:**

Electronic File Format and Valid Data Specifications

INTRODUCTION

Background:

The Railroads may choose to submit, to the FRA, their Accident/Incident Reports in an electronic file, with report data in either ASCII format; or in a database table or spreadsheet. This document, the Companion Guide to the FRA Guide for Preparing Accident/Incident Reports ("Companion Guide") is the companion guide to the FRA Guide for Preparing Accident/Incident Reports ("FRA Guide") which is a supplement to 49 CFR Part 225, and it provides the acceptable electronic file format and valid data specifications for the following Accident/Incident Reporting Forms:

- Form FRA F 6180.55 Railroad Injury and Illness Summary
- Form FRA F 6180.54 Rail Equipment Accident/Incident Report
- Form FRA F 6180.55a Railroad Injury and Illness Summary (Continuation Sheet)
- Form FRA F 6180.57 Rail-Highway Crossing Accident/Incident Report

The FRA Guide describes the various FRA Accident/Incident Reporting and Recordkeeping Forms, and it contains a list of these forms in its Appendix H, along with the actual forms. Please refer to the FRA Guide for reporting guidelines and instructions for completing the forms. Please note that if any discrepancies are found in this Companion Guide compared to the instructions in the FRA Guide, the FRA Guide should be followed. Where an "Appendix" is referenced (e.g., Refer to Appendix H"), refer to the Appendices in the FRA Guide. Where an "Attachment" is referenced, refer to the attachments found at the end of this Companion Guide.

Railroads have the option of submitting electronic files via Internet or on optical media (CD-ROM explained on page 3) to the FRA in lieu of hard copy monthly submission for: Forms FRA F 6180.54, FRA F 6180.55a, and FRA F 6180.57. Railroads may also submit electronic files for Form FRA F 6180.55, and for this form, either the hard copy, or an image (.jpg or .pdf) must also be submitted.

Brief Submission Guidelines:

The following is a brief summary of guidelines for submitting reports as electronic files, either electronically over the Internet, or on optical media:

1. Newly submitted reports, and updates and amendments to reports, may be submitted in electronic files. The entire year-to-date files are submitted (but do not include deleted reports).
2. Electronic data files that adhere to one of the file formats in this Companion Guide can be submitted over the Internet via e-mail as attachment, or submitted on optical media.
3. One of the file formats provided in this Companion Guide, must be followed. **If the optical media or electronic submission does not strictly follow the rules set forth below then the entire submission will be returned and the paper forms will be required. The FRA will work with the railroad to assist and only if this is not workable will paper forms be required.**
4. Submissions should follow guidelines provided in the FRA Guide.

Changes to Companion Guide Compared to Previous Version

In this newest version of the Companion Guide, there are changes to some of the data values on the forms, and two new fields have been added (ROADWAY on Form FRA F 6180.57 (for "Roadway Conditions"), and TERRITORY on Form FRA F 6180.54 (for "Type of Territory")). Refer to Attachment A for a summary of changes to this version of the Companion Guide, compared to the previous (2003) version of the Companion Guide, and for related information. A list of changes for each specific form, by field name, is provided in Attachment B of this Guide. In addition, minor wording changes were made in the description of some of the fields, to more closely correspond to a form's wording or to FRA Guide instructions.

Submitting Data in Acceptable File Format:

A railroad choosing to use optical media or electronic submission via the Internet must use one of the approved formats specified in this Companion Guide. FRA may reject submissions that do not adhere to the required formats, which may result in the issuance of one or more civil penalty assessments against a railroad for failing to provide timely submissions of required reports as required by § 225.11. When appropriate, FRA will assist railroads in filing acceptable electronic/optical media submissions.

Applicable Reporting Standards/Forms after June 1, 2011

Railroads amending/correcting reports created or submitted prior to the effective date of the Miscellaneous Amendment to the Federal Railroad Administration's Accident/Incident Reporting Requirements; Final Rule (Final Rule), which became effective June 1, 2011, 75 FR 68862, November 9, 2010, must amend or correct the form that was originally created/submitted for the accident/incident. Moreover, those amended/corrected reports for accidents/incidents occurring prior to the effective date of the Final Rule are subject to the standards that were in effect at the time that the Accident/Incident occurred. Railroads submitting reports, including

late reports, for accidents/incidents that occurred prior to the effective date of the Final Rule must submit these reports using the forms and standards that were in effect on the date the accident/incident occurred. These requirements are also discussed in the FRA Guide (refer to Chapter 1).

Railroads should use this guidance for amending/correcting reports and submitting reports, including late reports, to determine whether to provide data for new fields (i.e., new fields that become effective on June 1, 2011), or previous fields (i.e., those fields that were in use, since 2003, with Accident/Incident date prior to June 1, 2011). New fields are: TERRITORY-Type of Territory-Form FRA F6180.54, and ROADWAY-Form FRA F6180.57; and previous fields are METHOD-Form FRA F6180.54, and WHISTBAN-Form FRA F 6180.57.

Railroad Injury and Illness Summary (Form FRA F 6180.55)

For Form FRA F 6180.55 (Railroad Injury and Illness Summary), regardless of whether or not an optical or electronic version of this report is submitted, the Railroad Injury and Illness Summary form, signed by the railroad's Reporting Officer, will be required to be submitted monthly, either as hard copy, or as a scanned .jpg or .pdf image. This report contains the counts of reported casualties that occurred that month and the number of FRA forms attached.

Batch Controls

The Railroad Injury and Illness Summary form (Form FRA F 6180.55) is used as a batch control sheet for the other forms that are submitted, so that missing forms can be detected. The Form FRA F 6180.55's (either hard copy or image) casualty counts and number of actual records submitted for each of these forms, should correspond with the actual electronic records for these forms submitted for the particular submission month.

Optical Media - Optical Storage Media

Optical media refers to a CD ROM (Compact Disk - Read Only Memory) available in most computer supply and office supply stores.

Acceptable Formats

- .dfb format (Refer to Exhibits 1, 2, 3, and 4)
- .xls format (Refer to Exhibits 1, 2, 3, and 4)
- .mdb format (Refer to Exhibits 1, 2, 3, and 4)
- .txt (ASCII format) (Refer to Exhibits 5, 6, 7, and 8)

(Note: FRA is looking into the possibility of adding XML (eXtensible Markup Language) format, in the future.)

Program Available through the FRA

The FRA has a special PC based program to enter, retain (store) and submit accident/incident and injury/illness data on a personal computer. This program is the Accident/Incident Report Generator (AIRG). The newest version of AIRG is AIRGNET. AIRG generates several recordkeeping and reporting forms¹ and generates a data upload file that can be submitted on optical media or as an e-mail attachment, as an upload file that is submitted over the Internet. AIRG can be run either as a standalone, single-user application, or as a multiuser system (with database on Network Server, and application running from each client). An AIRG request form can be found in Attachment D of this Companion Guide. For further information on the AIRG software, contact:

FRA Project Office
(888) 372-9393
Support@FRAsafety.net

Year-To-Date Submission

With the option of providing monthly reports to the FRA the entire year-to-date file must be submitted monthly. Therefore any corrections or revisions should be made to the railroad's existing databases. Each month, all of the records in the railroad's annual data bases will be submitted, this includes all new records, previously submitted records that have been changed and previously submitted records that have not been changed. Each year's database remains open for 5 years. If a report is to be deleted, a request should be e-mailed to the FRA Project Office at aireports@frasafety.net, and the deleted report should no longer be submitted in the year-to-date submissions (once it is deleted).

Data Validation and Error Correction

Every record submitted is checked for errors. When an error on a paper form is found the FRA will contact the railroad and try over the phone to correct the problem. When an error is found in an electronic submission, the railroad will be requested to correct the data error in their database and resubmit the entire year-to-date file. Note that the record in error will not be added to the database. The railroad will be subject to a violation for failure to report in a timely manner.

The regulation 49 CFR 225 allows a railroad 30 days, after the end of the month in which the accident/incident occurred, before submitting the accident/incident reports. A railroad does not have to wait 30 days after the month before making an electronic or optical media submission; each month the files will be updated with the most current information. Early submission of

¹ Forms Generated by the AIRG System: FRA Forms F 6180.97, F 6180.98, F 6180.55, F 6180.54, F 6180.55a, F6180.56, F 6180.57, F6180.78, F 6180.81, and F 6180.107.

electronic or optical media will allow a railroad sufficient time to correct any errors and resubmit the report(s) to the FRA within the allowed time period.

Auxiliary Files

The FRA has posted on the FRA Office of Safety Analysis web site, files with codes used in accident/incident reporting. The following files can be accessed by going to <http://safetydata.fra.dot.gov/OfficeofSafety> and clicking on **Download**:

1. Train Accident Cause Code
2. Employee Job Codes
3. Injury and Illness Codes
4. Circumstance Codes
5. Casualty Codes
6. Railroad Codes
7. Location Codes: State, County, City
8. Data File Structures and Field Input Specifications

How to Name the Data Files to be Submitted

This section describes how to name data files to be submitted. The "Reference Name" is listed below, by form, and is also shown on the first page of each Exhibit (see Exhibits 1 - 8).

<u>FORM</u>	<u>REFERENCE NAME</u>
Form FRA F 6180.55	RRSUM
Form FRA F 6180.54	ACCIDENT
Form FRA F 6180.55a	CASUALTY
Form FRA F 6180.57	GXIR

The following naming convention should be followed to name the data files to be submitted:

RR_REFERENCE NAME_MMY.file extension

where	RR	=	Code of Reporting Railroad
	REFERENCE NAME	=	RRSUM, ACCIDENT, CASUALTY, or GXIR
	MM	=	Current Report Month (Month of Accident/Incident)
	YY	=	Current Report Year (Year of Accident/Incident)
	File Extension	=	dbf, .mdb, .xls, or .txt

Examples of File Names:

Example for Railroad XYZR submitting data for October 2010, in Year-to-Date .xls files:

XYZR_RRSUM_1010.XLS
XYZR_ACCIDENT_1010.XLS
XYZR_CASUALTY_1010.XLS
XYZR_GXIR_1010.XLS

Example for Railroad XYZR submitting data for November 2010, in Year-to-Date .mdb files:

XYZR_RRSUM_1110.MDB
XYZR_ACCIDENT_1110.MDB
XYZR_CASUALTY_1110.MDB
XYZR_GXIR_1110.MDB

Example for Railroad XYZR submitting data for December 2010, in Year-to-Date .txt files:

XYZR_RRSUM_1210.TXT
XYZR_ACCIDENT_1210.TXT
XYZR_CASUALTY_1210.TXT
XYZR_GXIR_1210.TXT

Where to Send Accident/Incident Reporting Data Files

A. Sending electronic files via Internet, as e-mail attachments:

Data submissions, being sent as e-mail attachments, should be sent to aireports@frasafety.net.

For technical support, contact:

FRA Project Office
(888) 372-9393
support@frasafety.net

Each railroad utilizing the electronic submission via the Internet option shall submit to FRA at aireports@frasafety.net:

- (i) An electronic image of the completed and signed hard copy of the Railroad Injury and Illness Summary (Form FRA F 6180.55) in .pdf or .jpg format only. Please specify in e-mail Subject: Railroad Code, "IMAGE of Form FRA F 6180.55", Reporting Month Reporting Year (e.g., XYZR, IMAGE of Form FRA F 6180.55, November 2010); and

- (ii) The completed accident/incident report [electronic data] submissions. Please specify in e-mail Subject: Railroad Code, "RAIRS Data File", Reporting Month Reporting Year (e.g., XYZR, RAIRS Data File, November 2010).

FRA will provide to the railroad an electronic notice acknowledging receipt of submissions filed electronically via the Internet.

B. Sending electronic files on optical media:

Each railroad utilizing the optical media option shall submit to FRA a computer CD-ROM containing the following:

- (i) An electronic image of the completed and signed hard copy of the Railroad Injury and Illness Summary (Form FRA F 6180.55) in .pdf or .jpg format only; and
- (ii) The completed accident/incident report [electronic data] submissions.

Please send the CD-ROM to the FRA Project Office:

FRA Project Office
2600 Park Tower Drive, Suite 1000
Vienna, VA 22180

Please refer to <http://safetydata.fra.dot.gov/OfficeofSafety>, and click on "Changes in Railroad Accident/Incident Recordkeeping and Reporting Info" for updated information, or contact the FRA Project Office at (888) 372-9393 (support@frasafety.net).

Retention Requirements

See §225.27, and the FRA Guide, for retention requirements.

Form FRA 6180.55

Notes:

Please note that while the below format is specific to .dbf, it can be used to set up .mdb, and .xls file formats. Sample formats for .mdb and .xls file formats are provided in Attachment D. If file is to be in .mdb format, the following applies: Where "C", for character is shown in the .dbf format, please use "Text" with the same length specified in the .dbf format. Where "N" for numeric, is shown, please use "Number", integer, with the same length specified in the .dbf format, with the exception of Latitude and Longitude, which should be double. If the file is to be in .xls format, use the field names, shown below, as the spreadsheet column headings.

A summary list of Changes to Fields and Data Values on the Forms, is provided in Attachment B.

If Railroad submits data electronically for Form FRA F 6180.55, they should also send in either a hard copy, or an image in either .jpg or .pdf format.

Refer to appropriate section of FRA Guide for instructions.

96	LATITUDE*	N	10 6	Latitude, in decimal degrees, explicit decimal, explicit +/- (WGS 84) (e.g., +35.301486). Required for accountable rail equipment accidents/incidents. (Block 50 on the form.)
97	LONGITUD*	N	11 6	Longitude, in decimal degrees, explicit decimal, explicit +/- (WGS 84)(e.g., -085.280201). Required for

accountable rail equipment
accidents/incidents.
(Block 51 on the form.)

98 TERRITORY C 5

Type of Territory. First position (required) indicates the type of territory (signaled or nonsignaled) and valid values are 1 and 2. Second position (required) indicates the authority for movement and valid values are 1-5. Third, fourth, and fifth positions (optional) are supplemental/adjunct codes (they are mandatory to the extent that all applicable codes are entered). The codes used to complete the Type of Territory block are dependent on the Type of Track (block 20). The codes for the last 3 positions are alphabetic. Refer to Appendix J for Type of Territory codes.
(Block 30 on the form.)

Notes

***Mandatory Field** - A valid entry must be provided for each field identified as mandatory (*), per specifications/conditions provided, otherwise the entire record will be rejected. All character information must be upper case, left justified, blank filled, unless otherwise stated. All numeric information must be right justified, zero filled, unless otherwise stated. Each field that is not applicable ("N/A") should be blank. A "0" should be used in a field to represent an entry of "None".

Railroad Injury and Illness Summary
(Continuation Sheet)
Form 6180.55a**

Notes:

Please note that while the below format is specific to .dbf, it can be used to set up .mdb, and .xls file formats. Sample formats for .mdb and .xls file formats are provided in Attachment D. If file is to be in .mdb format, the following applies: Where "C", for character is shown in the .dbf format, please use "Text" with the same length specified in the .dbf format. Where "N" for numeric, is shown, please use "Number", integer, with the same length specified in the .dbf format, with the exception of Latitude and Longitude, which should be double. If the file is to be in .xls format, use the field names, shown below, as the spreadsheet column headings.

A summary list of Changes to Fields and Data Values on the Forms, is provided in Attachment B.

Records in each file must be sorted in YEAR/MONTH/RAILROAD/INCDTNO order.

Refer to appropriate section of FRA Guide for instructions.

C = Character; N = Numeric

Reference Name: **CASUALTY**

	Field Name	Type	Width	Dec	Comments
1	YEAR*	C	2		Report Year. Year of Accident/Incident (year covered by this report). (Block 4 on the form.)
2	MONTH*	C	2		Month of Accident/Incident, include leading zero, i.e. 05 (month covered by this report). (Block 3 on the form.)
3	RAILROAD*	C	4		Reporting Railroad Alpha Code. (Block 2 on the form.)
4	INCDTNO*	C	10		Accident/Injury [Incident] Number of Reporting Railroad (no embedded blanks, punctuation or special characters). (Block 5a on the form.)
5	TYPERS*	C	1		Type of Person (Letter A through J). (Block 5f on the form.)

6	JOBCODE*	C	3	Must be acceptable job code, see Appendix D. (Block 5f on the form.)
7	ICODE*	C	4	Must be acceptable Injury or Illness code, see Appendix E. (Block 5i on the form.)
8	AGE	C	2	Age of the individual at the time of the incident. (Block 5g on the form.)
9	STATE*	C	2	State Alphabetic Code, see Appendix B. (Block 5e on the form.)
10	DAYSABS	N	3	Number of days away from work. If there were no such days or a fatality is being reported, enter 0. (Block 5o on the form.)
11	DAYSRES	N	3	Number of days restricted. If there were no such days or a fatality is being reported, enter 0. (Block 5p on the form.)
12	DRUG_ALCOH	C	4	Drug/Alcohol Test. The first two positions in this field should store the number of positive alcohol tests. If an alcohol test was conducted with no positive results, enter "00". If no test was conducted, leave blank. The last two positions in this field should store the number of positive drug tests. If a drug test was conducted with no positive results, enter "00". If no test was conducted, leave blank. (Block 5h on the form.)
13	DAY*	C	2	Day of Accident/Injury (Block 5b on the form.)
14	TIME*	C	6	Time of Day [of Accident/Injury]. The

Summary of Changes to this Version of the Companion Guide and Related Information

The following is a summary of the changes made to this version of the Companion Guide, compared to the 2003 Companion Guide, and related information:

1. Changes to valid data values, and newly added fields (appended to the end of a table)
2. It is noted that Form F6180.55 does not require notarization
3. It is noted that each year's database remains open for 5 years.
4. Two additional formats will be accepted: .xls and .mdb
5. Removal of magnetic media and the addition of optical media (CD-ROM)
6. Form 6180.99 is no longer required and the form is deleted
7. FRA Form 6180.55, if being sent as an electronic data submission, can also be submitted as an image (.jpg or .pdf), in place of the hard copy.
8. FRA Form 6180.81 can be submitted either as hard copy, or as an image (.jpg or .pdf).
9. A receipt is to be sent to the Railroads as acknowledgement of receipt, for data for forms submitted (must be in acceptable electronic format). The Railroad is to retain FRA's acknowledgement of receipt of electronic submissions, for 5 years.
10. There are minor changes made, and/or some new codes, for Cause Codes and Circumstance Codes (refer to the FRA Guide).
11. Change in content of Form FRA F 6180.54's block 30, for "Methods of Operation" (to "Type of Territory"), and Form FRA F 6180.57's block 34 for Whistle Ban (to "Roadway Conditions") (New fields have been added to the end of the data tables for "Type of Territory" and "Whistle Ban").
12. The paper copy of Forms FRA F 6180.54, 6180.55a, and 6180.57 no longer is needed to be initially submitted monthly, as verification of the electronic data files.
13. Data submissions are to be sent to aireports@frasafety.net

AIRGNET REQUEST FORM (ACCIDENT/INCIDENT REPORT GENERATOR, .NET Version)

The Federal Railroad Administration's AIRGNET (Accident/Incident Report Generator, .NET version) Application is a Windows based computer program which facilitates the processing of all monthly reports and logs required under 49 CFR part 225. With AIRGNET, railroads can record and maintain their accident/incident data, and submit their FRA-required monthly reports electronically. Fully installable copies of the application are provided, free of charge, to interested railroads who regularly submit accident/incident reports to FRA.

Please read the following and complete the items below to receive a copy of AIRGNET.

- In order to install and use AIRGNET, you will need an IBM PC or compatible, and may need at least 150 to 250 MB of available hard disk space, 256 MB RAM, and have Windows 2000, NT, XP, or VISTA
- AIRGNET can be set up either as a stand-alone application with database on a single personal computer; or as a multi-user system (connected to a main AIRGNET database residing on a server, and the application running from each client). AIRGNET allows users to enter, edit, and maintain required FRA reports and logs.
- AIRGNET is provided to qualified users at no cost and its use is purely voluntary on the part of the railroad. Neither FRA, nor FRA Project Office, nor Creative Information Technology Inc., assumes any liability for hardware damage or data loss resulting from improper use of this product.

To request AIRGNET, please complete the items below and fax back to the FRA Project Office at (571) 282-6487. (For assistance, contact the FRA Project Office Help Desk: (888) 372-9393, support@frasafety.net)

Requestor's Name: _____ Telephone: _____

Title: _____ Fax: _____ e-Mail: _____

Mailing Address: Railroad Name(s):

I have read the requirements and conditions above and would like to receive (check off one item):

- a complete AIRGNET Installation set on compact disk (CD), or
- an Internet address (i.e., URL) from where to install AIRGNET over the Internet (high speed Internet connection is required)

My personal computer's (PC) Operating System is:

- Microsoft Vista
- Microsoft Windows 7
